Brazilian Poles

*Parts are removed due to individual contributor’s wishes

Brazil metas are ALMOST NEVER 100%

That’s why it’s fun :)

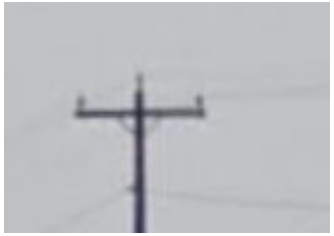

Generic Brazilian Pole (everywhere)

Antenna / Car glitch often

Acre

Exists

Most common (often with transformer)

Urban common
(thin top bar)

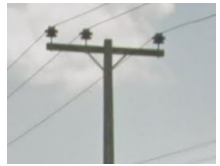

Kinda common

Square poles (except Rio Branco can have round poles)

White Car / Antenna
Car glitch common

Rondonia

Exists, more western

Most common, almost spammed

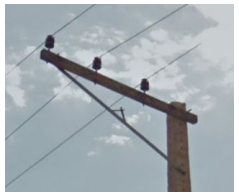

Kinda common

New Gen 4 stuff

Urban common-ish

Square / Wooden poles (except Porto Velho can have round poles)

Amazonas

Some poles says AMAZONPOSTE or ARCOMA on the poles

Blue Car

Most common

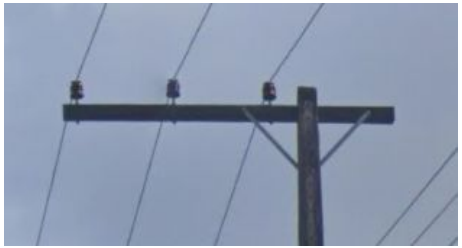

On some roads

Common

Amazonas green pole

Urban

Square / Round / Wooden poles

Roraima Antenna common
Gen 4 Blue Car in Boa Vista

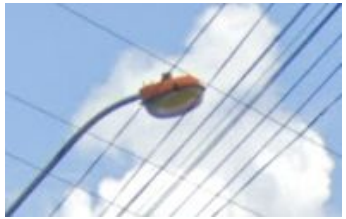

Roraima

Most common and useful

(I don’t use it usually but common ig)

Red lamps common

Square / Wooden poles (Round in Boa Vista)

Antenna / No Antenna Mixed

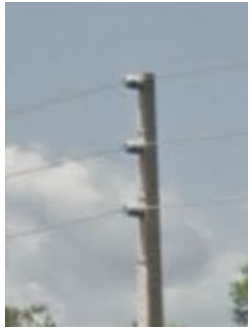

Amapa

(or its square version, both very narrow)

Rare but exists

Exists

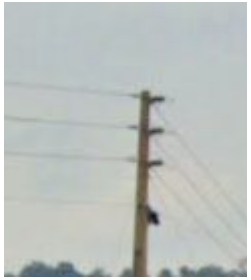

Round / Square / Wooden poles

Para

Mostly Blue Car
except tiny bit around Macapa

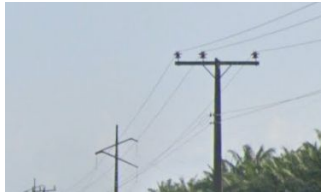

Common

PA-475 specific

Common throughout the
state, but especially
Santarem - Macapa area

Also says CELPA on the poles

Common in Belem
(often with threads
hanging down)

Mostly Macapa /
Santarem

Maranhao pole spill
near Belem

Round / Square / Wooden poles
(Belem almost all round
and often see birds on the pole jk)

Almost all Blue Car
Except downtown Sao Luis

Maranhao

Very common

Kinda common

Northern Trident
Common

Square poles (Maybe some round pole near Sao Luis)

Mato Grosso

Blue Car except 1 Road
(Many 2022 new Gen 4 are white)

Very useful

Common
(notice thin bottom)

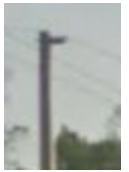

Very inland area
wooden pole (rare)

Balls sometimes near downtown Cuiaba

Maybe does not work
but I want to use it

Exists
(New Gen 4)

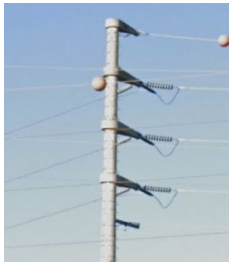

Common but not
unique

Square with a little bit of Round poles

Almost all White Car

Mato Grosso do Sul

Balls rare

Arg looking poles near Campo Grande

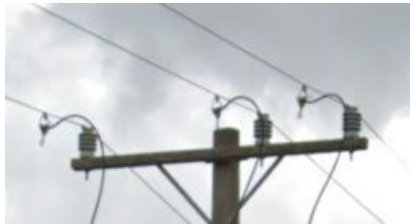

Both common and often Mixed

Bunch of them on the side of the road common

Round pole + long insulator common

Square / Round poles
Slightly more likely to see white painted bottom poles

More Blue Car

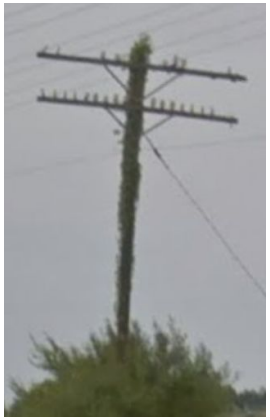

São Paulo

Most common

Poles spilled from other states
Generally more western / northern / southwestern

Unique

Wooden poles near metro São Paulo area

> 85% Round poles, others Square or Wooden

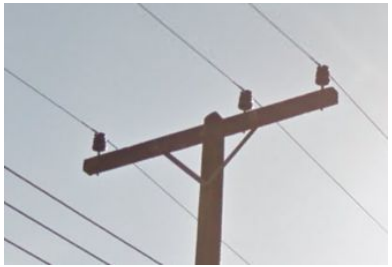

More White Car

Paraná

Balls sometimes

Most common
(Bottom part usually fatter than other neighboring states)

Small Insulators more North / Western

Exists

Parana Trident
(more western)

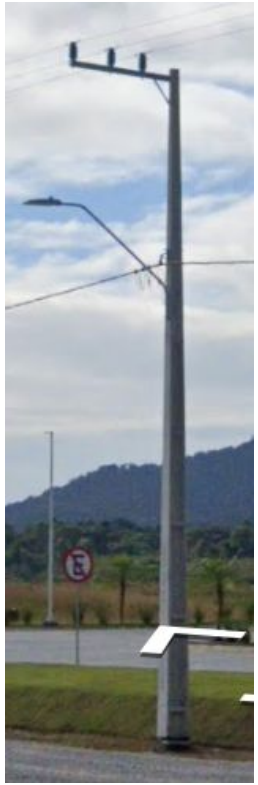

Exists

Almost all Square poles with some round

More Blue Car

Santa Catarina

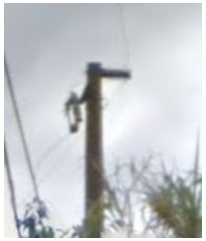

Many Balls

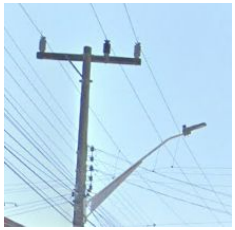

Long Insulator asymmetrical pole common

Southern Para pole often seen

Coastal (rare)

Square / Round / Wooden (rare) poles

More White Car

Rio Grande do Sul

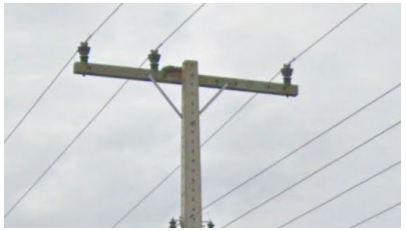

Many Balls

Most common

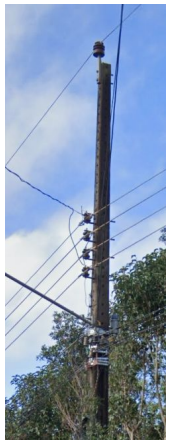

Exists

(prob not unique)

Dark poles
common (fake)

RGDS Trident

Exists (northwest)

Wooden poles > 70%, rest Square then Round poles

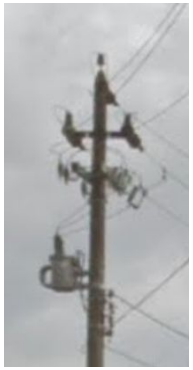

Rio de Janeiro

Mixed Car
sometimes visible front

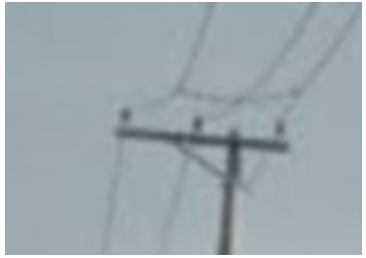

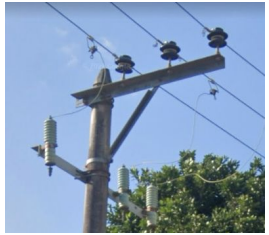

Rio / ES specific insulators
(but no long insulators otherwise
unlike PR/SC)

Unique

Common

Rio pencil pole

Wooden poles

Round / Square / Wooden poles

Almost all Blue Car
Sometimes visible front

Minas Gerais

Mixed poles, long insulator highly uncommon other than western part or near Sao Paulo metro area

Square (more than its neighbors) / Round / Wooden (rare) poles

Rare

Minas two-part lamp
(more western, but also found in GO/SP/RJ)

Espirito Santo

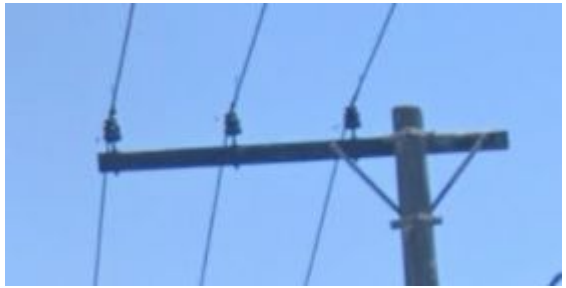

Mixed Car
Sometimes visible front

Rio / ES specific insulators
(but no long insulators otherwise unlike PR/SC)

Rare

Urban

Exists

Balls rare

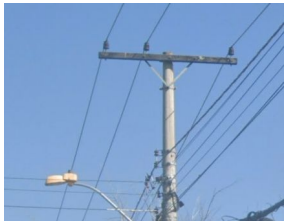

Why using poles when u have EPIC mountains :)

Square / Round / Wooden (rare) poles

Goias

Mixed Car
sometimes visible front

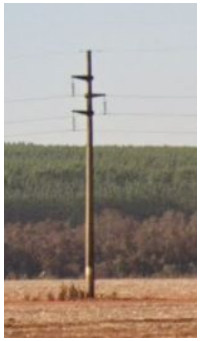

Balls very very rare

I use this a little bit

U can see all of those

Square / Round / Wooden (rare) poles
Slightly more likely to see white painted bottom poles

Mixed Car

Tocantins

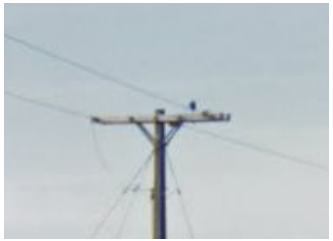

Common ish but not unique

U can see all of these

Para pole spill west

Almost all Square poles with some round in cities

More White car, Blue car are mainly northeastern

Bahia

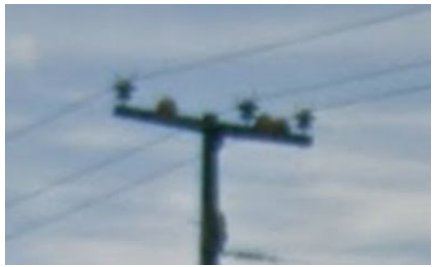

Balls rare but useful since never seen balls north of Bahia

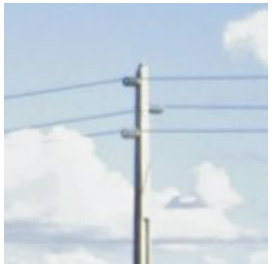

Bahia thick Round poles

Long insulator spam much more common than other northeastern states

Exists

BA-460 max northwest of the state

Mostly square poles with only limited round ones

White car: CE / west RN / max west PB / AL / NE PI (rare)
Blue car: max south CE / PI / west PE / entire coast

All Northeastern states

Thin cross in PI twice, PE once

Long insulator uncommon, but mostly either RN or east coast

SAELPA / ENERGISA in PB

Ceara Lamps (could spill to max west Paraiba)

Ceara thin insulators

Tridents slightly more north coast

Square poles (except 0.1% in state capitals)
